05. MicroSD

08. Type-C Port

11. Flashlight

03. Volume-

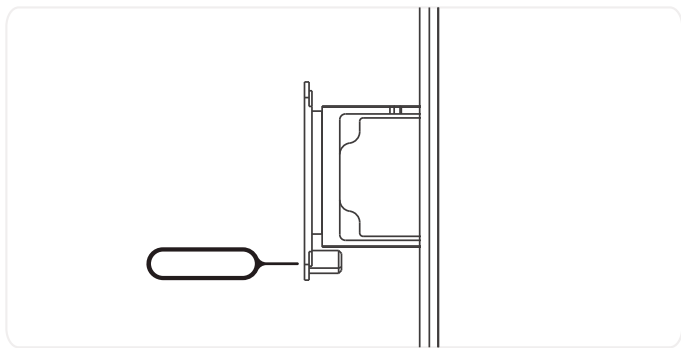

06. Front Camera

09. Speaker

12. Pogo pin  
connector

**INSTALL MICRO SD CARDS**

Turn off your device before inserting or removing the card.

**CHARGE YOUR DEVICE**

In some countries or regions, this package may not include a charger to help reduce environmental impact. You can power the device using most USB power adapters along with a USB Type-C cable. For the best charging experience, use a USB Power Delivery (PD) charger that provides at least 33 W of power. Make sure to use a charger that meets local safety standards for mobile devices. Chargers that comply with international standards such as EN/IEC/UL 62368-1 are recommended. Using chargers that don't meet safety standards could cause damage or injury.
